NOMINEE INFORMATION

Nominee Firm Name:

_____

Introduction/Description of Nominee Firm:

_____

2025 CYBERSECURITY IMPACT AWARDS

Please describe your innovation being nominated. What is it, what does it do, and how does it work? Note: This innovation must have been developed within the last two years and must be in production with at least one firm for consideration. Please include details about how AI/ML is specifically incorporated into your solution.

_____

What cybersecurity challenges or unmet needs in financial services does your innovation address? Please include specific threats, risks, or operational gaps that your solution helps mitigate.

_____

What makes your innovation truly innovative in today's rapidly evolving cyber threat landscape? How does it differentiate from existing commercial solutions? Please highlight any novel applications of AI/ML, unique architectural approaches, or groundbreaking methodologies.

_____

INNOVATION BENEFITS AND VALUE

What are the qualitative benefits and value proposition your innovation delivers to financial services firms? Please include impacts on security posture, operational efficiency, and risk management capabilities.

_____

What quantitative improvements and specific, metric-based benefits have clients realized? Please provide concrete metrics around threat detection, response times, false positive reduction, operational efficiency gains, or other relevant KPIs.

_____

FUTURE ROADMAP & OTHER INFORMATION

What is your innovation's 12 to 24 month roadmap? Please address how you plan to adapt to evolving threats, incorporate emerging AI capabilities, and enhance your solution's effectiveness.

_____

Please include any additional information not covered above, such as unique deployment scenarios, integration capabilities, or specific compliance frameworks addressed.

_____
